# COMMERCIAL

Plumbing is our DNA. It is a pulse that continues to beat throughout the halls of our campus. A palpable rhythm that has been felt for over a century and a half. Our ethos was founded on an idea of delivering superior quality. On never compromising performance or materials. Simply put, we engineer our commercial products to last. Only then are we satisfied.

# EYESAVER<sup>®</sup>

EYEWASH + FAUCET

Our most trusted and reliable fixtures – the 100% ANSI/ISEA Z358.1 Certified Eyesaver Series with updated design features a dual aerated eyewash paired with an independently operated faucet.

Two water supplies built within its frame ensures tepid water is always delivered to the eyes, regardless if hot water is running from the faucet simultaneously.
