

SPEAKMAN®

THE EXPERIENCE SPEAKS FOR ITSELF

DESIGNER LOOK BOOK

SPEAKMAN®

Over the course of over 150 years, and more than 100 patents for design and innovation, Speakman has remained at the forefront of shower head quality. Over the decades, we have come to be known as engineers of exceptional experiences.

PREMIER HOTEL PROPERTIES FEATURING SPEAKMAN

Our experience in Hospitality and Commercial industries coupled with our understanding of what resonates with guests, positions us as a trusted partner of all major hotel brands.

HEALTH & WELLNESS

The purpose of a shower is to get clean. But when water journeys through plumbing, it collects chlorine, iron, dirt, and other unwanted elements that can adversely affect the health of your hair, skin, and overall well-being. At Speakman, we care about the health and wellness of all of those using our products.

Focused around health and wellness, our line of filtered showering products feature an internal filtering system that can remove up to 99% of chlorine and other harmful contaminants from your shower water. Now you can shower easy knowing that your water is as clean as possible, all while providing remarkable benefits for you and your health.

Consumers are aware of the importance of healthy skin. Increasing demand for natural, herbal, and organic products that have no adverse effects is continuing to grow. With numerous skin care products and regimens available, the use of water and natural, non-toxic ingredients is more important than ever, and we couldn't agree more.

WATER CONSERVATION

Every natural resource in this world is a limited resource. Therefore, at Speakman, we take water conservation very seriously and have dedicated our resources to design showerheads that offer the same amazing experience while saving water and protecting our environment.

For nearly a century and a half, we've set the standard for what it means to take a truly great shower. From the force of every spray to the size of every drop, our engineers are completely obsessed with delivering the greatest showering experience possible. And they've taken that exact same approach to our family of watersaving showerheads. Instead of simply restricting water flow, our team developed revolutionary technology that optimizes and enhances water pressure, resulting in the most powerful eco-friendly performance imaginable.

**GOOD
HOUSEKEEPING**

HOTEL ANYSTREAM SHOWERHEAD

"Best Low Flow Showerhead. This option isn't too costly but still delivers great results, which is probably why it's commonly found in hotel bathrooms."

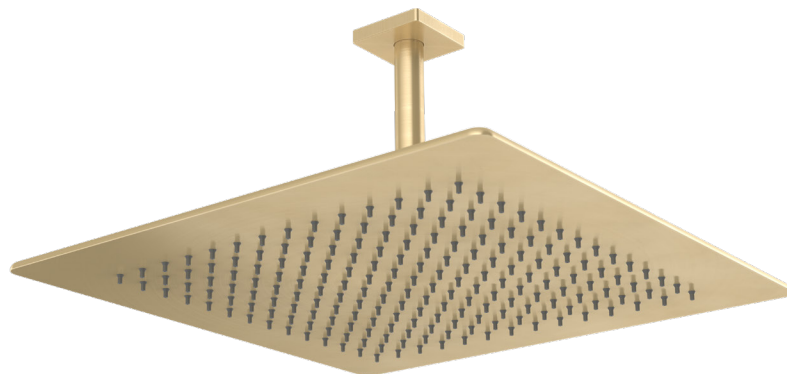

Clodagh is an award-winning designer who passionately believes that good design can transform people's lives. Clodagh embraces both ancient and cutting-edge methods to comfort not only the body but also the mind. Clodagh Design projects have been recognized with numerous awards including Interior Design Magazine Top 100 Interior Designers, Architectural Digest Top 100 Designers in the World and the Global Wellness Summit's 2018 Sustainability Leader.

CLODAGH

LURA®

With Lura, we believe that less is more. Inspired by elements of both minimal and industrial design - each fixture in this collection features crisp lines and pronounced curves. The result is a classic, yet undeniably modern assortment that's ideal for both traditional and contemporary bathrooms alike.

For years, award-winning designer **Roger Thomas** has been an unstoppable presence in the hospitality industry. Executive Vice President of Design for Wynn Resorts - Roger's exquisite projects can be seen all throughout the globe. Our relationship with Roger began years ago with the development of the Opera Collection - a dramatic, timeless selection of fixtures featured in every bathroom of the Wynn Cotai Palace in Macau, China.

ROGER THOMAS

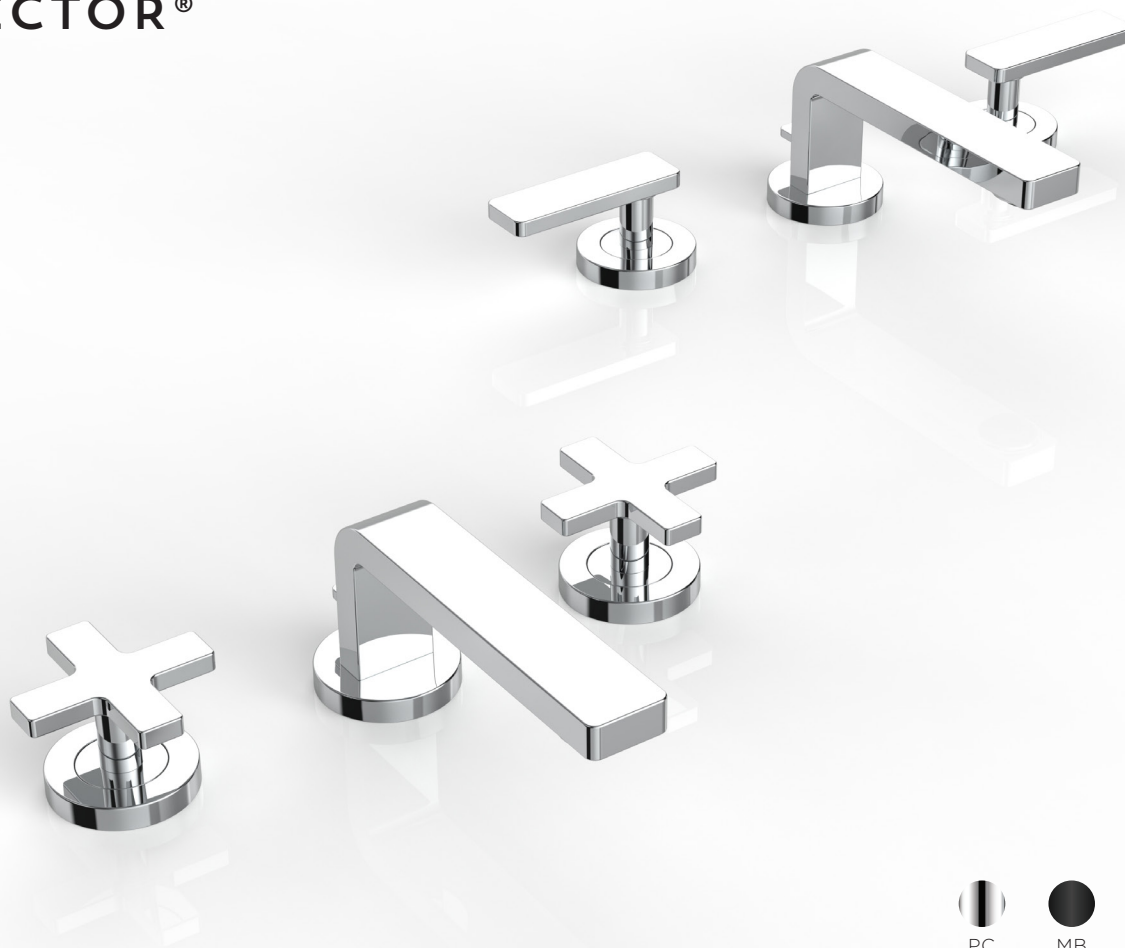

VECTOR®

With Vector, the lines tell the story. They guide the eye throughout the bathroom to create a visual experience that's enticing at every angle. Each fixture in this assortment features clean, precise lines accentuated by soft curves to create an elegant look that's surprisingly bold.
